## Integrated Color Server for the Xerox® PrimeLink® C9200 Series Printer

Efficiency meets excellence with the Xerox® PrimeLink® C9200 Series Printer and its standard Integrated Color Server. Robust workflows help any business make quick work of essential tasks, from secure, high-value printing to file sharing, so more to-dos can get done each day.

- Increase your opportunities with an expansive media selection—including Extra-Long Sheets (XLS) for creative banner printing—and inline finishing capabilities ranging from stapling and hole-punching to folding for presentations, brochures, reports and newsletters.
- Use the Xerox® Standard Accounting Feature and internal auditing to track device usage, set limits and control costs.
- With remote UI capability, perform interactive training and support your users right from your desktop with the Remote Control Panel.
- Tailor your device to work the way you do with the ever-evolving selection of innovative apps available on the Xerox App Gallery.
- Customize and save your print driver settings for save on specific applications—such as always printing emails in black and white.
- Maximize your productivity by performing scan, print, copy, fax and file routing operations simultaneously.
- Easily share files or introduce electronic archiving with powerful scan capabilities. Text-searchable files make retrieval simple. And compression technology reduces network load for faster transmission.
- Enjoy automatic installation, troubleshooting, feature setup and upgrades with the Xerox® Embedded Web Server.
- Replenish supplies automatically—Automated Meter Readings (AMR) collect and submit readings and Automatic Supplies Replenishment (ASR) orders ink whenever supplies run low.
- Securely print from any email-enabled device with the Xerox® @PrintByXerox App. No software to download. No IT intervention. Just send an email and print at the device.
